

HOW TO make a DoozyDo Fundraising page, or join one.

Go to the [Become a Fundraiser Page](#).

1) Fill in your name for your **Individual Fundraiser Name** and if you like

- Pick a **fundraising goal** \$100; \$500 or whatever works best for you.
- Write a short **personal email message with a heading**, something like:
Building a Caring Community
I support [Northampton Neighbors](#) and hope you'll help NN to keep doing what they're doing--including hosting the spectacular [DoozyDo Parade](#).
- Add your **picture**

2) Add your name (FirstLast with no spaces) in the white space in the box marked **Create Your Custom Fundraiser URL**.

- To find it, go to your personal fundraising page, click on "Manage" button just to the right of your name and, in the drop down menu, "Links/Sharing."
- This link sends people directly to your fundraiser page. (There's QR code you can share, too).

3) Share your link in email, text, social media or on a webpage with a short message to encourage people to click for a caring community.

You can also join a fundraising team.

- 1) First, create your own individual fundraising page, as described above.
- 2) Next, Click "Manage" and from the drop-down menu, "Edit Fundraiser."
- 3) Scroll to the bottom of your fundraiser page and click "Join a Team"
- 3) Select the team you want to join.

Or start a new team. To start a new team, click the "No" button to "Yes" and fill in the name you want. Share your link in email, text, social media or on a webpage with a short message to encourage people to click for a caring community.

Email nndoozydo@gmail.com for help.
